**Grade 2 A****The Ascension**

Jesus had ten disciples and he was put on the cross and he rose from the dead. He went to heaven to his Father who was the king of the earth. Jesus went down to see his disciples and when he went back up to his father the disciples looked up. Then some angels came and they asked; "Why are all of you looking up?" They said Jesus has gone to heaven and they were happy.

**Wame Mosenene**

The Ascension means that Jesus rose from earth to heaven to be with his Father. When Jesus went to heaven there was a big cloud and the disciples looked up into the sky and two angels appeared out of nowhere and asked why are you still looking at the sky? Jesus will come back one day.

**Adam Leontsinis****I am a star**

I am a star because I am good at reading and art and baking things. I am good at snooker and soccer and golf. I like drawing and investigating about bees. I am good at modern drums and trumpet and the guitar. I also know all 11 languages!

**Mpho Mogale**

I'm a star at art because I don't leave gaps. If I do I always fill the gaps up. Art is very fun, I enjoy doing art it's my favourite subject. I also like maths, it's my second best subject. Maths is good for you because it teaches you a lot. I also like computers, it's fun. I always make posters and send e-mails.

**Reynard van Zyl****Chocolate**

I think chocolate is delicious. I don't like nutty chocolate at all. Some chocolate is creamy. I think chocolate is very tasty. Some chocolate is crumbly like a Tex. Some chocolate has caramel inside it. Some chocolate is very hard and you can taste a milky taste.

**Nicholas Hardie****The Land of Happiness**

Once I was at school and there were three new people. They were Dick, Fanny and John. They became my best friends. One day we were having a walk and we saw this funny tree. We started to climb it and when we got to the top we saw everybody was happy and no one was sad. We met Neversad, Joyful and Faithful. We became best friends. We had a walk around. It was very small. We decided to not be sad and only happy. And whenever someone fell down they weren't sad. We had lots of fun but had to go home and have tea!

**Fletcher Grafton****The land of dinosaurs.**

Once there were five children and a dog. Their names are Michael, Adam, Joshua and Mpho. The dog's name is Camel. They are all friends. When they were climbing up the faraway tree they got quite a surprise. They saw dinosaurs and they each got a dinosaur. Michael got a Triceratops, Adam got a Tyrannosaurus, Joshua got a T-Rex, Mark got a Diplodocus and Mpho got an Allosaurus. They met two friends whose names are Dinodude and Saurussuker. They all had fun with their dinosaurs. Dinodude and Saurussuker showed them how to control their dinosaurs. They all gave their dinosaurs a name. Michael named his Airplane, Adam named his Speedo, Joshua named his Jex, Mark named his Big Guy and Mpho named his Allo. Everyone played with the dinosaurs. Then they said good-bye to Dinodude and Saurussuker and went home.

**Michael Harrison****The Land of Party's.**

In the morning me, Nic and Steven asked mom if we can go to the far away tree. She said yes. We went at 11 o'clock on our bikes and when we got there we climbed the tree and went to the land of party's. We looked around and there were parties everywhere. We had lots of presents and got everything we ever wanted. We had some cake and then we played with some toys. They went home at 1 o'clock. They played with some joke teeth and they lasted all day. When they got home they opened all of the presents.

**Luke Ware**

**If I could make the world a better place I would...**

clean the rubis up and help the people by helping them with reading and witing by teching them how to and helping sick people and bringing them to hspatles. I would help the pilece and I would also help the omy men and I give the paw people food. I would get paw people in to schools because thay dont no how to rede and wite.

**Patrick Mercer**

stop people from begging on the streets and give them a job and the children a school and give them food. I would stop poaching because thay are ciling the elephants and rinoes for the ivory.

**Nicholas Brink.**

tell all the people to stop taking sheeps akros the sea on ships. I also would build the twin towers.

**Luke Boswell**

help the poor people and clean the road and I will catch the people that do not have homes and that do not have a family and I will help the people that do not have a job and the people that can't walk.

**Tristan Fayard**

stop robbers from killing and steeling ather peoples things like jewlery and ear rings cars and childrens radios and I would buy poor people things and buy food for the poor people.

**Trent Anticevich**

take peop;e a round the world to drefrent countries like South Africa and greenland because it would be fun and stop the bad people and kill Dragons to save other people.

**Grant Caister**

give the poor people better things and would clean up and give the poor schools a better school and help the polece stop the violence and the killing and stop the polluting around around the world.

**Devin Ingram**

make the twin towers and I would take the guns from the criminals I would make the world a safer place. I will help the people.

**Dylan Smit.**

stop peepil from litrin because then yoer dogs do not no what it is and thay will eete it and get sick and that is not nise.

**Nicholas Boyce**

**The country I would most like to visit.**

I would most like to visit Italy because I would love to taste the pizza, pasta and I would also like to go in a Ferrari and other cars made in Italy. I also find it very interesting that Italy is a shape of a boot because I have seen it on a map. The people never stop talking Italian and I think that's dumb!

**Sebastian Watson**

I would like to go to America. Because they have Disneyland lots of things to ride. They have a funny accent too. America has some of the nice shops. I have only been to America once. At America I went down the second highest slide. There were cool slides at the beach. In America the weather is good so they swim a lot. Where we were there was a jacuzzi and I stayed in it for about 3 hours because it is so warm.

**Nicholas Wright**

I would like to visit London because they have the best money, pounds. They have the biggest clock Big Ben, in England, it goes ding dong. The queen's jewels are the most beautiful jewels in England. London has one of the best defenders, Real Ferbman. He plays for Manchester United, a football club. He gets paid a lot of money because he plays very good. Sometimes he plays defender and sometimes striker. In the world cup England lost against Brazil two - one. The goalkeeper was crying because they lost.

**Kgabi Moeng****London**

Buckingham Palace is where the queen lives when she is in London. Across from Buckingham Palace is St. James Park. Bobby's Guard Buckingham Palace. When the queen is at the palace the flag is up. Big Ben is the world's biggest clock. It does not go ding, it goes bong. Next to Big Ben are the Houses of Parliament. The Thames river flows through the hole of London. It has lots of bridges that open up when big ships come through.

**Michael Alves**

Trafalgar Square is full of pigeons. Sometimes crows come to eat some bread to get full. Now people are not allowed to feed the pigeons. Tower Bridge opens for big ships. Small ships go under the bridge. The Tower Bridge only opens for ships that don't fit. There are five holes that small ships can go through.

**Maxi Hahn****What I would do if I was headmaster of this school.**

I would make school outings on every Tuesday. I would make school half an hour long and I would put all the boys' things in the school magazine. If boys were naughty I would send them home. If they were good the teachers would give them sweets. We would give them shows every Tuesday and would have basketball and hockey.

**Christopher Wijnberg**

If I was headmaster of this school I would give the good children a sweet. The bad children would get a very very hard smack. The children who finish their schoolwork would do their homework. So when they get home they don't have no work to do. So they play and do what they want. But when they are bad we have to send them home in their mom's car. When they are good again they can come back to school.

**William Oosthuysen**

I will give the children chocolate every day and school will be from 6 o'clock to 11 o'clock and break will be one hour. I will let them do what they want and let them come to school in civvies any time they want. They will not get detention and no-one will get expelled or suspended. If they are naughty they will do a test for two weeks and if they are very naughty they will do a test for two months.

**Mark Hodgson**

I'll make school half an hour and an hour for extra murals. School on Friday is fifteen minutes. I'll call the school St. Adam's and you can wear civvies. I'll give them easy work, short hair cuts all the time or you get detention, (when long). If you don't have what you have been told to bring you go home. I'll be a bit strict and careful for reports.

**Adam Howa**

I would make boys play rugby from Grade 3. I would make school start at 7.45 and end at 2.30 and have 2 hours break. For P.T. the three classes would play World Cup Cricket, soccer or rugby. The extra murals would be cricket, soccer, rugby, drawing club, swimming and athletics. There will be five pages of home work a week. Once a year there will be a A.T.V. race for Grade 5 and 6. The A and B cricket, soccer and rugby team will train from 8.00 to 9.30 on a Monday and Wednesday.

**Graham Hyslop****Mr. Runner**

Mr. Runner lives in Run Land. Everything runs there. The trees grow very fast, the birds fly very fast, in fact they can reach China in one day. One day Mr. Runner went to buy a chocolate bar, but he dropped it and he slipped on the chocolate bar and broke his arm. He cried and then Mr. Stretch heard him crying and he helped Mr. Runner. Mr. Stretch brought Mr. Runner to the hospital. Mr. Runner decided not to run with a chocolate bar anymore.

**Fionn O'Connell - Hussey****Mr. Maker**

Mr. Maker lived in Maker town. He was a chocolate maker. He was a very greedy maker and he stole all the chocolate. He lived in a chocolate shaped house. Mr. Maker went to work one morning and stole all he could get. He came home with a lot of chocolate and ate it all up. The next morning when he went to work the factory was closed and he went to the shop and the shop was closed. The only thing that was open was the fruit store. He had to buy some fruit and after that he liked fruit.

**Gino Guimaraes****Mr. Naughty and the chocolate factory.**

Mr. Naughty lived in Busy Land. The trees were busy, the birds and everything was busy. It only stopped being busy at night, but not for Mr. Naughty. He always did something naughty every day. This time he ran to the chocolate factory and Mr. Angry was still working. When Mr. Naughty opened the door he went right past Mr. Angry and Mr. Angry was so angry that his face got red and steam came out of his ears. Mr. Naughty stole some chocolate and Mr. Angry ran after him and caught him and he promised that he would never do it again.

**Alex Rodrigues****Grade 2 N****A day in London.**

I arrived in London. I'm going to Hamleys to explore. On the way I met some Bobbies. Then I got to Hamleys. I went inside to look. They had lots and lots of toys in Hamleys! Then I went to the River Thames. I saw the Houses of Parliament and I heard Big Ben. Then I saw 10 Downing Street. I also saw Buckingham Palace. I went on a tube underground and I had fish and chips for lunch. Then I saw the guards and Queen Elizabeth and Prince William in Buckingham Palace. I went back to the river and saw Tony Blair the Prime Minister of England. Then I went to Wimbledon to watch tennis. I then went to see Shakespeare's Globe Theatre. I went to Madame Tussauds and then I went to Hyde Park to sit down. Then I went to speaker's corner.

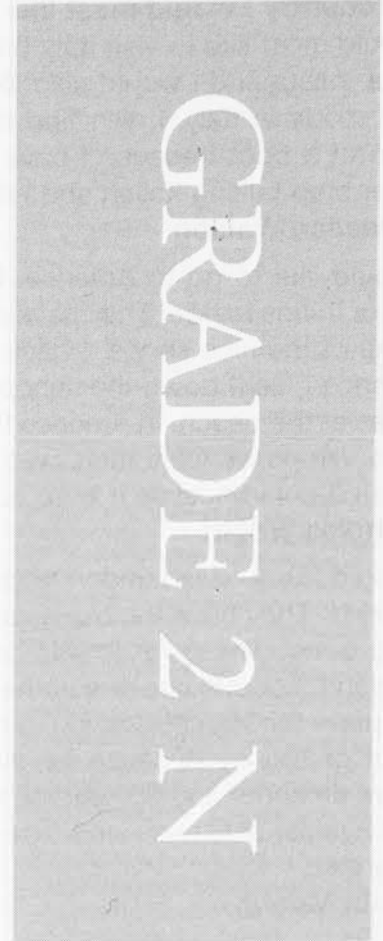

**Joshua Clark.**

I'm Phileas Fogg. I'm in London. It is beautiful. My first stop was Buckingham Palace. I saw the changing of the guards. Then it was time to go to my next stop. It is The Clock Tower. I heard Big Ben ring so I thought I wanted to go on the London eye. I am scared of heights so I was very scared. When I was walking down the street I saw Tony Blair walking down the road to see Hamleys to find some toys for some children. I went to Harrods to find some other toys. I got tired of toys, so I went to Shakespeare's Globe Theatre and saw Cats. It was nice and classic and really good so it went away to quiet. So I got very sad so I went to the London bridge. I was very sad because it was time to go.

**Jonathan Seland.**

I went to London and it was great. The first thing I did I went on a boat and I saw the Bridge of London. Then I was surprised to see the London tower but do you know that long ago prisoners used to go there and it was stinky in jail but now the queens

jewels are there. Then I went to Madame Tussauds and it was beautiful. You could see famous people in wax and different people but they were all made out of wax. Then I went to Buckingham palace. I was amazed. I saw Queen Elizabeth and Prince Phillip. The next day in London I went to Speakers Corner and I talked on a box about London is great and they all agreed. I went to Big Ben. I looked down and saw the Houses of Parliament. I saw Tony Blair and the cabinet ministers and Tony Blair was the head minister. Then I went to watch a movie in Shakespeare's Globe Theatre and it was great. Then I went to see the Marble Arch. It looked beautiful. Then I went home.

**The Day Madiba came to visit.**

Last Wednesday the ex-president of South Africa came to visit. A school from Sweto also came to visit our school. When he came, he came in a black Mercedes and he had four bodyguards and then he told us not to smoke dagga and bring weapons to school and don't drink and his grandson comes to our school.

**Liam McCreedy.**

On Wednesday Holy Cross Primary came to our school and we gave them pencils with beads on. Then we went to the pool and we saw Nelson Mandela. He came in a Black Mercedes and did his speech and his grandson goes to our school. After we had hotdogs and chips and coke then the other school went back and we went to go and work. After we finished we went home to tell our moms that Madiba came to our school.

**Pano Skylakis.**

On Wednesday Nelson Mandela came to our school and we went down to the swimming pool. His speech was on not taking drugs. And don't take guns to school. And don't do any violence. He said that the children are the fruit of the country. My favourite part was meeting Madiba.

**Alessandro Pavan.**

Nelson Mandela came to our school and told us that drugs and guns are not allowed. That we must work for the school so we can learn. The children are the future and our country is the

best. We had it at the pool. Then we had coke and hot dogs. The best part of the day was Nelson Mandela.

**Dominic Rawstorne**

The best part of the day was when I saw Mandela. Then Mandela said that all the things that happened in his life. He said that the children are the future of the country. The best part of the day was meeting Mandela.

**Derek Mazaham.**

We went to the swimming pool and watched and Nelson Mandela said children are the future of the country. He said please don't take drugs. Then they did a little dance and we met a school. We made a present for them. We went and got food for free. We played. We had good fun. The best part of the day was when I met Nelson.

**If I had one wish.....**

If I had one wish in the world, I wish for a private Learjet. I have always wanted to be a pilot and fly planes with passengers around the whole world.

**Stephen Haupt.**

If I had one wish it would be to live with my mom and dad's family in England. In South Africa it is a bad crime rate and people that die. In England there is hardly any crime and hardly any people that die. It snows and I have never touched snow in my life. And the parks have pretty flowers. In South Africa its flowers are sometimes dead. That's why I want to live in England.

**James Davey.**

If I had one wish I would wish that I would be a rugby player and play for the Sharks. I want to go into the super twelve every year and get lots and lots of trophies because I love the game.

**How to make a pizza.**

If you want to make your own pizza, all you need is a bowl. Inside this bowl you must put 2 cups of flour, two tsp. Yeast, 1 tsp salt, 1 cup of tepid water and then 2 tblsp. Of oil. Then you put it outside for an hour. After that you lay it out on a tray then you put on tomatoe paste then grated mozzarella cheese and then sliced ham. Then you put it in the oven for 15 minutes and theres your pizza.

**Romuald Sadowski**

First you put 2 cups of flour then you add 2 teaspoons of yeast. Then you add 1 teaspoon of salt. Then you mix it up in a bowl. Then you leave it out in the sun to rise. Then you knead the dough. Then you spread the tomato past. Then you add oil. Then you put it in the oven for 15 minits. Then gobiling.

**Tiddalik**

One day there was a frog called Tiddalik. Tiddalik lived in Australia. All the animals didn't like him because he drank all the water. One day Wombat sead we must make Tiddalik laugh and then the water will come rushing and gushing out.

Kookaburra sead. I will make him laugh.. I am the laughing bird. So off he went and told him one funny story after another but he did not laugh he just sead "Racket, racket, racket"

Kangaroo sead let me triye. Wen I jump in the air he will have to laugh. So he went up to Tiddalik and jumped up and down under his nose but he did not laugh he just sead "Racket, racket, racket". Then lizard sead lets see what I can do. So he went up to Tiddalik walking on his two front legs and his taylor in the air. Tiddalik did not laugh he just sead "Racket, racket, racket" Then eel sead I'll triye. What can you do sead the other animals, youre not funny.

We'll have to see sead Eel. Eel slithered kloser and kloser until he was under Tiddaliks stumick and then tikel, tikel tikel.

Tiddalicks eyes openede wide and he started to laugh.

Thes days the Australians say wen the land is driye, Tiddalik drank all the water and wen thers a flud thay say the clever eel has made Tiddalik laugh.

adventure was going to be the best adventure. So we went through the bushes and over the big fence and through the long grass and over the huge gate and over big, big bushes and through the door and up steps and into bed.

**Matthew Schild**

Once upon a time my friend and I were walking in the forest when a bush moved. We went to see what it was. Then suddenly a giant bunny jumped out of the bush. It was wearing a tie. It said come with me. So we went with him to a tree. We said what's so interesting about a tree. Then he bent down and pulled a root of the tree. Then a hole in the ground opened there was a ladder going down. He climbed in. Then he said come on. So we climbed in at the bottom all we could see was a pitch dark cave. But then he whispered and lights came on and we saw a castle made out of gold and there was a stream in front. He took us inside. There was a pixie all over the place doing jobs. Then we said how are you then he said I'm the Easter bunny then my friend said no way. Then we looked at the pixie more carefully. They were making Easter eggs. He said do you two want some Easter eggs. We said yes please. Then we said we have to go home. So we climbed back up the ladder to the forest. We hadn't even passed a corner when a wolf jumped out. He started chasing us then the Easter bunny came and jumped on the wolf and knocked him out. We said thank you and went home to tell my Mom and Dad but they didn't believe us.

**David Arnot****Pizzas take over the world**

Once upon a time there lived pizzas. They looked very ugly. They were covered in their clothes. They were in their shirts, they never looked like people all of the people were very scared of them. We all like them. We ate some of them. And they ate all of them. Ran away from all of the people.

**Conor Mitchell**

One day there was a pizza that was greedy. When I was walking from school I saw a big pizza and it was growing and growing and it got bigger and bigger than a giant and it started taking over the world. Then a man came up with an idea and the idea was if you put water over pizza it will get all soggy and it will die no pizza

any more. The next day they did it and it worked and no more pizza.

**Kyle Harrison**

Once upon a time there were pizzas who were locked up by a king he locked them up because they had tried to take over the world so they could be rich and nobody would dare eat them so one day the pizzas got fed up but wait one of the pizzas fell over and knocked a lever and a laser gun appeared and they took the laser gun and used the gun to smash through the door and went to the space station got into a space ship and flew into space and blew up the world.

**Leslie Tetteh**

Once upon a time there was a boy called Chip and he went to America and when he got there he saw pizza people over the world and immediately ran to his room in the hotel and washed his eyes and he still saw pizza people and he washed his eyes again but he still saw pizza people so he went back home and on the plane he also saw pizza and when he got home he still saw pizza people. But then he started to eat the pizza until all the pizza people that's the end.

**Daniel da Silva****My story**

This is a story about Mr Flake, Mr Aero, Mr Kit Kat and Mr Barone. Mr Flake was walking to the park one day. And a police man came to Mr Flake and said stop. Mr Flake stopped and said what is it Mr police man he said. The police said why are you dropping chocolate. Mr Flake said because I am so crunchy. Well if I see you dropping chocolate again I will arrest you Mr Flake. So he walked on and when he got to the park he went on the swings and a Mom and Dad and a little child came and he said to Mr Flake why are you making the swings dirty with chocolate and the boy said get off and go home so Mr Flake went to Mr Aero's house and went in and Mr Aero came and said hello to Mr Flake and they sat down and Mr Flake said to Mr Aero where ever I go I drop chocolate and they shout at me. And they went to make tea. And when they came back there was chocolate on the couch and Mr Aero shouted at Mr Flake and said get out of my house. The next day he went to Mr Aero's house because he invited him over and Mr Kit Kat and Mr

barone where there and Mr Aero said come in Mr flake where got a surprise and they showed him it a flake wrapping and Mr flake put it on and from that day he lived happily.

We were doing an experiment with liquids. First we put the oil in, then the water and last the syrup. We looked at what floated and what sank.  
Devon Edwards

My experiment is about floating and sinking. We used salt, water, bottles and eggs. I liked the experiment because it was very hard to make the eggs float.  
Juan-Paul Van Der Merwe

This is my gadget. It is useful light. It took a really long time to make but after all it was fun.

I liked this experiment because we mixed things that would not stay mixed.  
Anthony De Vincitis

This experiment was so much fun.  
Michael McMeeking

I loved playing with my gadget and it was lots of fun designing it and making it work!  
Nicolas Jelonek

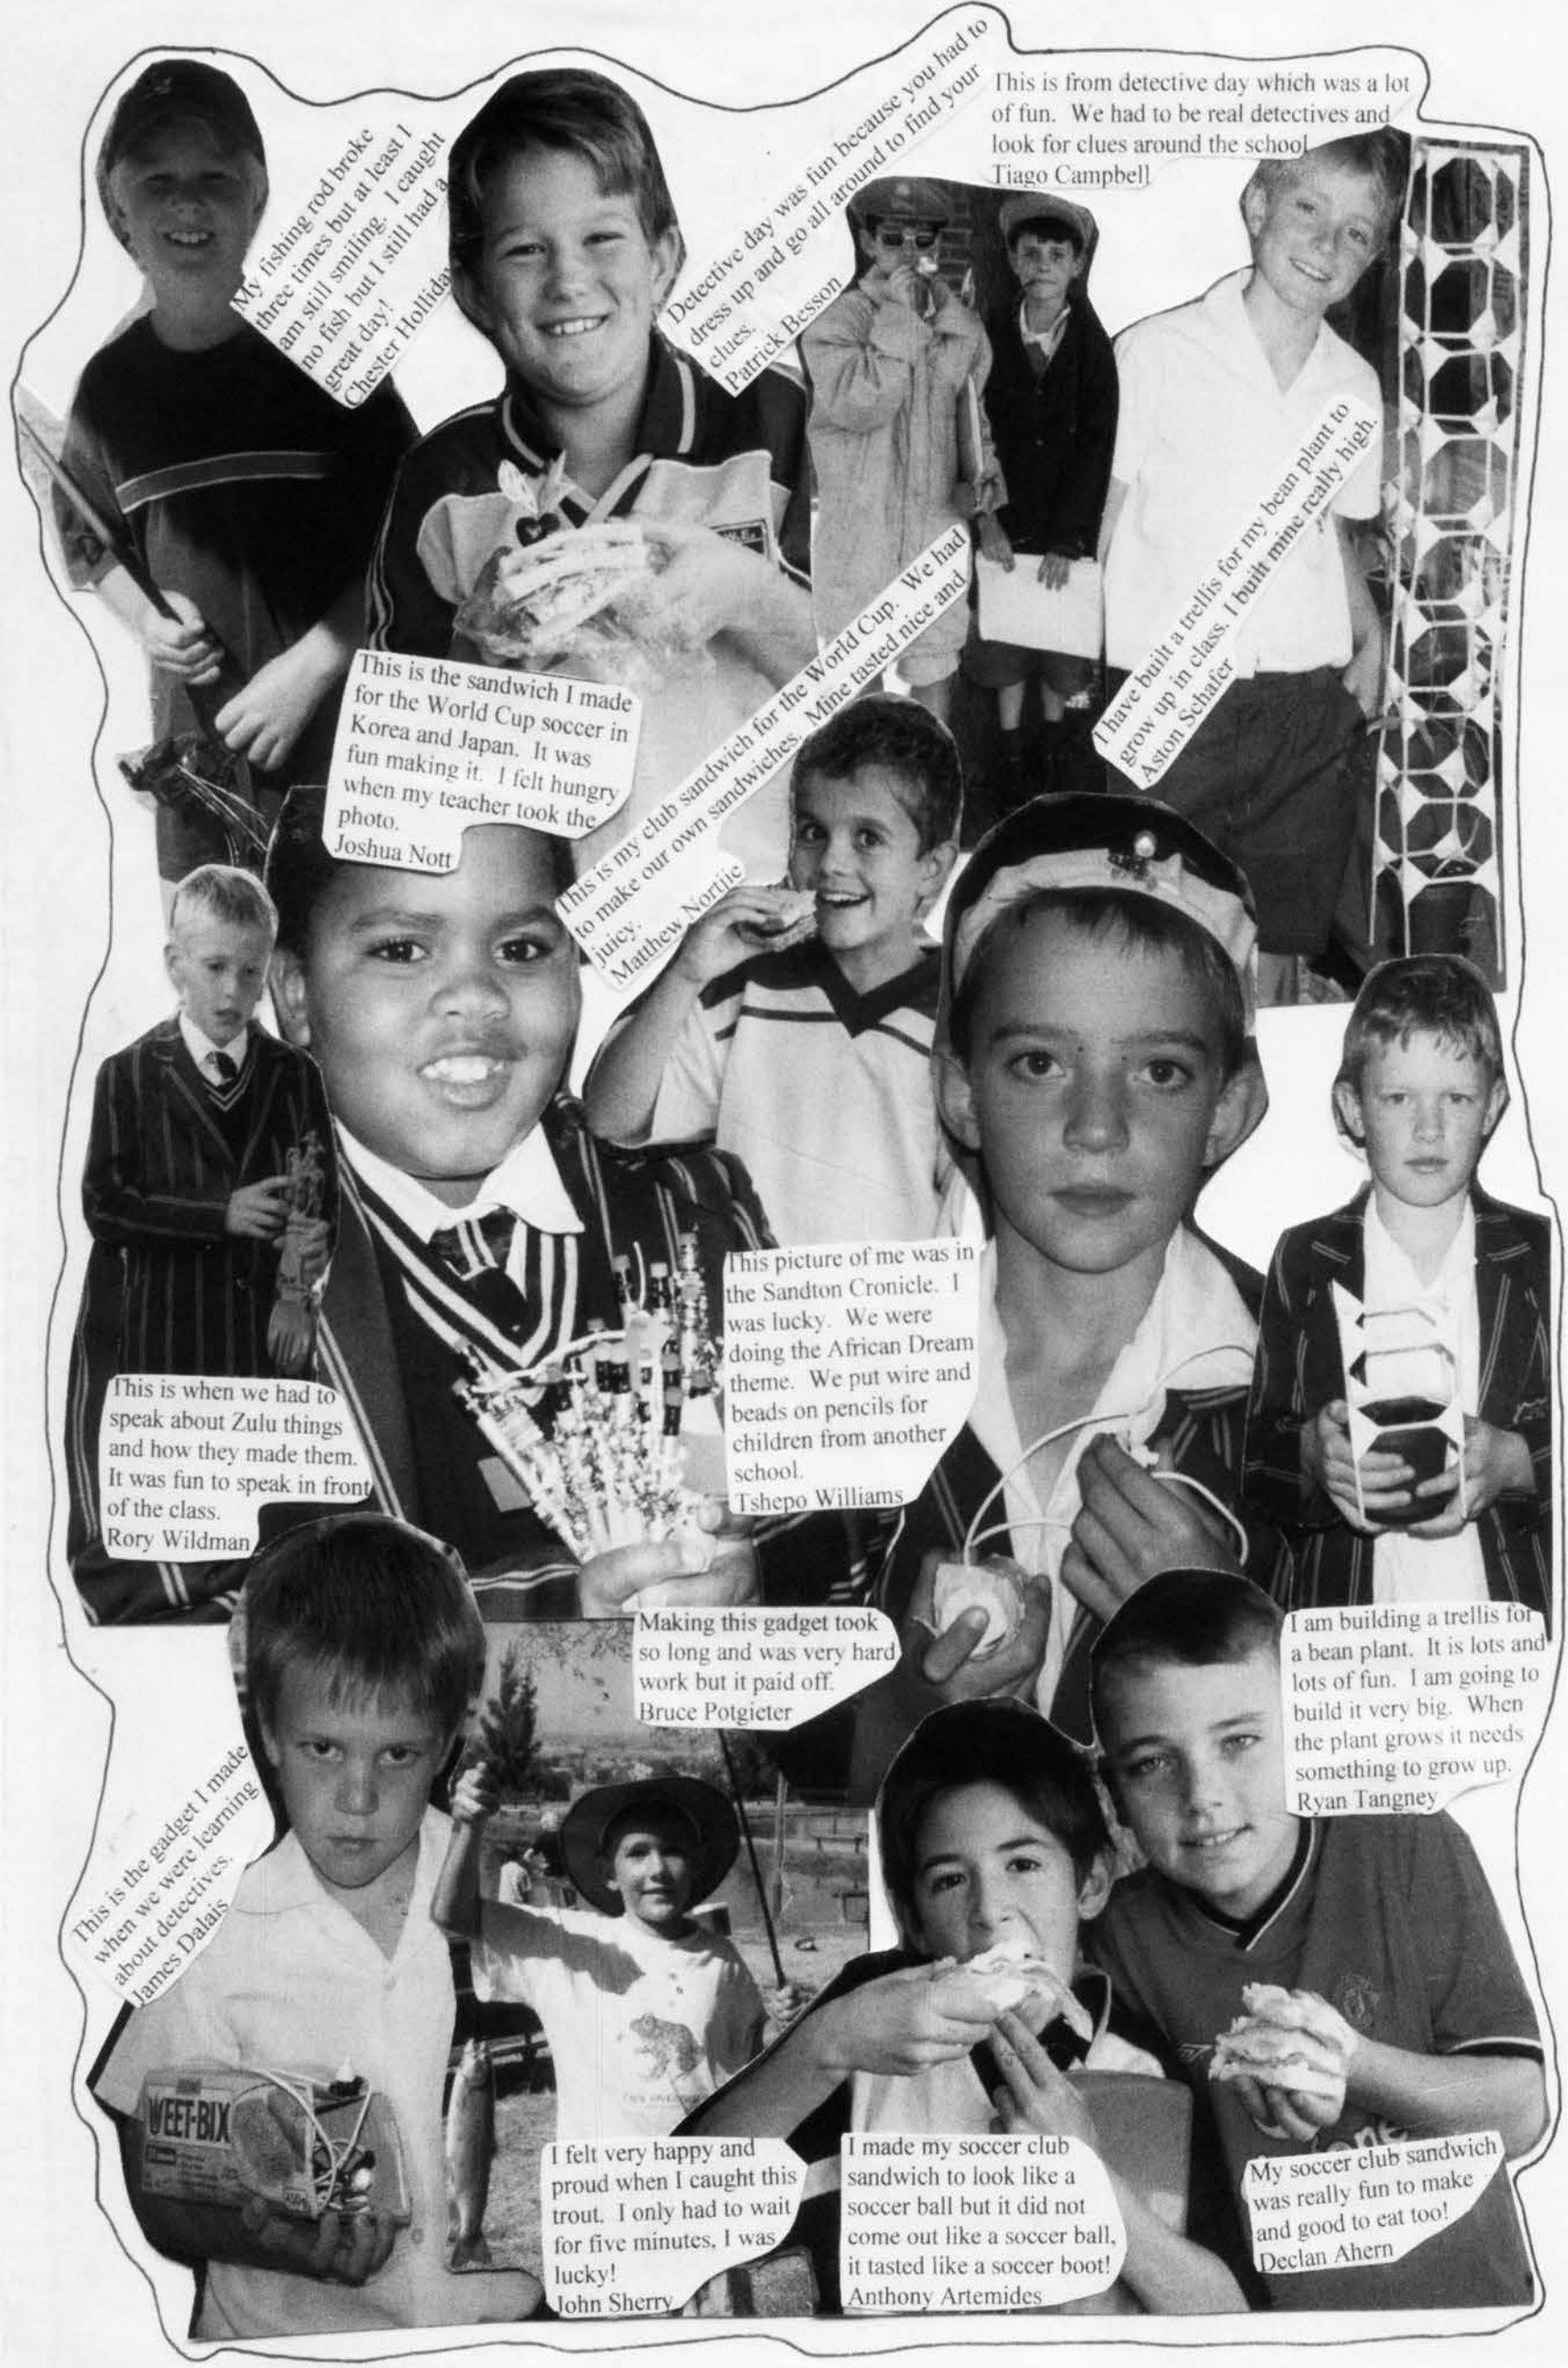

This experiment was cool because when we poured in the syrup it went to the bottom. Then we put some cooking oil and water in. I was amazed to see that the water sank to the bottom of the oil.

This is my club sandwich for the World Cup. We had to make our own sandwiches. Mine tasted nice and juicy.  
Matthew Nortje

This picture of me was in the Sandton Cronicle. I was lucky. We were doing the African Dream theme. We put wire and beads on pencils for children from another school.  
Tshepo Williams

This is when we had to speak about Zulu things and how they made them. It was fun to speak in front of the class.  
Rory Wildman

Making this gadget took so long and was very hard work but it paid off.  
Bruce Potgieter

I am building a trellis for a bean plant. It is lots and lots of fun. I am going to build it very big. When the plant grows it needs something to grow up.

Both Amundsen and I arrive at Antarctic with our equipment

##### 1911 October

By October my team and I prepared to set off.

##### November 1911

We left base camp with, 12 strong men travelling on skis, ponies, tractors and dogs to pull the sledges.

##### December 10 1911

We reach the Transantarctic Mountains, The ponies have become very tired, We had shot them!

##### 17 January 1912

My team and I reach the pole but are devastated to see the Norwegian flag flying high.

##### 25 January 1912

My team and I struggle to return. The team, weak and exhausted all have frostbite.

##### 17 February 1912

Evan is still ill and dies a chilly death.

##### 16 March 1912

Oates walks out of the tent, We heard a scream, Oates did not return.

##### 21 March 1912

There was a massive blizzard. We put the tents up. Bowers and Wilson die and I feel I'm next.

##### 29 March 1912

I'm only 10 kilometres from the food supply and sa.....

#### Scott's Diary

##### June 1910

My team and I set sail for the South Pole, with excitement and fear, for we did not know that would be there to welcome us. I did not know whether to take the dogs, ponies or tractors, so I took all of them.

#### January 1911

I pictured it as a white wasteland. I was right! I was the first man in the team to touch the ice. Winter set in fast and night was forever. By October it was warm, so it was safe to travel again. The tractors didn't take long to break down and the ponies were cold and tired because their sweat froze and stuck to them, so I had to shoot them.

#### 4 January 1912

We got to the top of the glacier and Oates, Wilson, Bowers, Evans and I raced to the Pole. One last ridge. NOOOO!!!! Oates let out a cry of rage as we saw the Norwegian flag flying high. I fell to my knees and as I stared at the red tent, I looked inside. I saw two letters, one for the King and one for me. Why in the world did Amundsen send a letter to me? I read it as we hiked to base camp. But then when I thought my luck couldn't get any worse, Evans fell, and never got up again.

#### 14 March 1912

We can walk about 20 km and then head to the main supply of food. Just then I saw Oates walk out of the tent. He never returned. I was hoping to make it to the food supply nearby, but then it happened. The worst blizzard of the year. For two days Wilson, Bowers and I were trapped. One by one we died. First Wilson, then Bowers. I was in the dark with two dead bodies and then death found me and set me away on a breath of wind that night...

#### My Diary

##### 1910

"50,51,52, all the dogs are packed for the trip!" We checked our sledges for all our supplies. I said, "These are the dogs that are going to take us to the South Pole!"

##### 1911

We arrived at Antarctic on Fram, our ship. We made base camp near the shore. By April the winter had dug in. When I heard that Scott was going for gold I knew a race was unavoidable. Next our party set off to lay down supply depots where they stored food and fuel.

**October 1911** Warmer weather had come which made travelling possible at last. To loose weight we shave the wood off our sledges and exercised. We did one final check of our supplies.

**20 October 1911.** My men and I leave camp on our 1.3300 km trek to the Pole. The first supply camp depot told us things to be aware of and wished us luck for the journey.

**17 November 1911** My men and I reach the Trans-Antarctic Mountains and we came across a grim 3000m glacier that leads right through the mountains. Almost everyone thought the dogs could not make it, but I did. At the top we came across the flat Antarctic plateau, now the trek is easier. I chose to shoot half the dogs to feed the rest. I only shot the weak ones.

**13 December 1911** We came across a flat clear place. The men on the sledges shout "Stop." We looked with amazement. We thought there was a dangerous animal, but it was the South Pole. We have finally made it to the South Pole. We looked for any sign of Scott. There was none. We all raised the Norwegian flag with pride and we put up the darkly coloured tent. I wrote some letters to the King and Queen of Norway. We ate our food with frostbite fingers. We rested for three days and then returned to our base camp.

**March 1912** We arrived in Norway on March 17, as heroes. We signed autographs and gave people pictures of our trip.

#### **Penguin Trouble**

As the Eskimos cook their dish  
The penguins think about the fish  
With a wiggle and a waggle  
All the penguins scuttle.  
Threw every puddle and away.  
The penguins are desperate  
And they all want it  
The Eskimos dive, but they collide  
The penguins slide, they're going for a ride  
But oops there goes all the fish in the dish!

**James du Plessis 4MJ**

#### **Penguin Parade**

The penguins start to paddle and try to waddle  
They are trying to race and pick up the pace  
To get to the floe, they have to get through the snow.  
The chick's moan and groan and the parents  
Giggle and wiggle.  
Most of the penguins yawn and watch out for the morn.

**Gareth Hardie 4MJ**

#### **Santa Claus**

With his big red bag of present giving to the peasants  
Some people say he is a fake and some a saint.  
He slips down chimneys without a sound even though  
He weighs 100 pounds.  
Every girl and boy wants nothing more but to see what  
Presents are under that decorative tree.  
He heads back home at the pole and things to himself  
What a great thing to do tonight!.

**Kailin Pillay 4MJ**

#### **Penguins**

Penguins are very slow on snow  
They use their feet to eat  
They eat the fish, a speciality of  
An Arctic dish  
When penguins travel they sometimes quarrel  
They use their bottoms to hatch their egg "pop"  
Out comes a little leg.  
Penguins are endangered because Eskimos hunt them  
And kill them too  
That is way we must ship them off to the zoo

**Fabrizio Sacco 4MJ**

#### **Killer Whales**

Killer whales do have tails but they do not have feet  
Instead of that they would rather eat

Penguins and fish which make quite a lovely dish  
For the villain of the Antarctic seas  
Killer whales did have feet but did not meet us humans  
So today we would rather play happily with them in the big sea  
Than in our own backyard. Wow Wee  
It's the villain of the Antarctic sea.  
Flying over ice, rolling like a dice  
He does not eat mice  
He cannot get lice  
The villain of the Antarctic sea.

**Brad Latilla-Campbell 4MJ**

#### **My toes are numb**

My toes are numb as you can see, because I'm bear feet.  
I'll show you the sea because my toes do not like the heat  
So I'll put them in the water fast so the ice falls off  
Now I'm hot and sweaty.  
My toes aren't numb anymore because I closed the Arctic door.  
After all I'm just on my mom's cold floor.  
So I won't daydream anymore

**Grant Walker 4MJ**

#### **Snow**

Some may say you're lucky  
If you have snow in your yard  
But others say  
Snow is rock hard

Around here in town  
People prefer ice  
Like in Northgate  
Its paradise.  
This is Antarctica  
The polar region  
It is the opposite  
To the Desert where sun is legion  
Over there the girls would  
Dare mindlessly each other  
To go and kiss a bear

**Daniel Still 4MJ**

#### **My Holiday**

During the holiday I went to Durban and we stayed at the Breakers Resort. On Sunday we went to my Granny's house and had a braai with my cousins.  
In the afternoon we went down to the beach and swam for two hours. On Monday morning we went to the Drakensberg and we stayed at the Fairways.  
We played golf every day, walked and relaxed in the Jacuzzi.  
The next day we played bowls with the rest of my family. At the end of the week we moved to the Hotel and had a big dinner and breakfast every morning and evening.

#### **Wonders of the Drakensberg**

When we broke up from school I was very excited, because we were going to the Drakensberg for a weekend. We left on Friday and came back on Sunday. We left smelly Joburg behind and soon we were in Harrysmith. We were getting close. Then we saw the tip of a mountain. It was wonderful to see the mountains again. There was still snow on the top. The place we stayed at was called Caven's Creek. We got to our house and started unpacking. Then we had supper and went to bed. The next morning we woke up and smelt the fresh air. We had a lovely breakfast and after that we just relaxed for a while. Then we went fishing. We didn't catch anything. We went back, had supper, stayed up a bit late then went to bed. The next morning we got up and had breakfast. Then my Mom, Dad and me went on an hours horse ride. We saw a lots of game on the ride. Then we went for a hours walk and had a shower under a waterfall. After lunch we packed and went home. I hope we come back here someday.

A year ago it was a lovely day in New York. At 9:28 horror struck one of the twin towers a famous landmark, an aeroplane came flying at the building, and hit it hard. Meanwhile in Fourways another terrible thing happened. I fell on a rock. I look at my knee and I could see my skin tissue. So off I went to hospital in the car. On the radio I heard that the South Tower had been hit.

**Tristan Schafer 4SJ****Madiba Comes to St David's**

Holy Cross in Diepkloof arrived at 9.00, shortly after our assembly. We went back up to our class and got organised, then after that we hurried down to the pool where we were accompanied by the Diepkloof school. We all went in and sat down. We waited for a while and then we were told that former President Mr Nelson Mandela would be arriving soon. We were all excited and waited until he would arrive. In the meanwhile we were taught a song to welcome Madiba, then all of a sudden everyone was silent and from the side of the swimming pool we all started singing. He walked up the red carpet and sat down. Then the Head boy stood up and started talking and after he had finished Madiba got up and walked to the stand and his words just made you feel so warm and safe. When in the freezing cold those words would comfort you for the rest of your life.

**Daniel Barnard 4SJ****Madiba visit St David's**

I thought today we were going to assembly as usual. Then I thought we were going to Stravino Park to talk to the boys and girls of the Holy Cross Primary school and that they would get chips and a cool drink. I was far out. This is what really happened.

We went to assembly as usual then we went to the classroom for no real reason, then we went down to Stravino Park and lined up, Holy Cross Grade 4 had not arrived yet. When they arrived we waited for about 15 minutes then the Holy Cross choir sang something in Zulu and Sotho and then the Lord's Prayer. We then went down to the Pool and Mr Webb said that Nelson Mandela was coming at 10.00. Then Mr Thackwell taught us a song about Mandela that we were going to sing when he entered. We went through Shosholasza once and waited about three minutes for him to come. When he came we sang the song about him. The two head boys St David's and Holy Cross did a speech, Mr Webb did one next. Nelson Mandela did a speech then two boys from High school did an act. I never knew he was so funny. Then Mr Edey did another speech and Mandela went home. Then we were told by Mr Webb that we must go back to the Rugby fields. We went for a Hot dog, chips and coke.

**Simon Rigby 4SJ****Nelson Mandela came to St David's**

The song of Mandela we were singing while Nelson Mandela and some body guards were walking in. Suddenly we stopped singing we were very silent then the head boy spoke about courage he said one day my first day at St David's I was scared and I did not want to get out of the car but a big boy encouraged me. Then Nelson addressed us. He spoke to us about how we can build our dreams and how proud we must be to be South African.

**Luca maraschin 4SJ****Madiba is in Town**

Today is a special day I have seen one of the worlds leaders in the flesh. Mr Nelson Mandela. One thing I like is the confidence in the way he speaks and the way he made us feel. In Robin Island if you have a dream reach for it and they got out and he became a better person. He became the president and he changed our nation and the world. To me Madiba is the best president I know. Today was the best day in the year for me he said "You are the future without you there would be no mankind, without you there would be no world." I understand what he said. And I made friends with some other children from another school. We sang a song for Mr Nelson Mandela. It was a great day.

**Dino Solomides 4SJ****S A Mint**

Coins are pressed by machines, they have the design imprinted on them. The old pressed has the imprint on the bottom and top. Our coins have groups, the groups are as follows, the red group, the yellow group and the white group. The pictures on the coins have groups. The red coins (the one, two and five cents) have birds. The one cent has two pigeons on it, the two cents has a fish eagle and the five cent has a blue crane on it. The yellow group (the ten cent, the twenty cent and fifty cent) have flowers. The ten cent has a lily, the twenty cent has a protea and the fifty has a stralizia on it. The white group (the one rand, the two rand and five rand) has animals. The one rand has the springbok, the two has an impala and the five rand has a black wildebeest on it.

South Africa has a lot of valuable coins made of gold and silver for example; the Kruger Rand and the wildlife coins. These are only a few of the coins. You can get a lot of money for old coins such as the 1931 tickey.

**Richard Fisher 4SJ****Nazis**

During the second world war, the nazis killed millions of people. Most of them were Jews. The nazis had put up a lot of concentration camps. While this was happening there was a father named Maximillian Koble. He was a catholic priest who was preaching in the war. When the nazis found this out they put him in a camp called Auschwitz in Poland. This camp was terrible. The nazis were terrible to them. One night when they were sleeping, one of the people escaped from the camp. When the commandant saw this he got really cross. Then he said "Now that one of you has escaped I'm going to put ten of you in a bunker". Then he told them who was going into the bunker. When he asked someone the man said that he had a family to look after. Then suddenly Father Maximillian said I will go in. The commandant said OK because of the great courage you have. When they were in the bunker you didn't hear any screaming you only heard singing. After ten days time they didn't hear any more. They went in and nine of them were dead. Father was still alive. When they say that he was just alive. Then the commandant called the doctor and asked him to give Father an injection to kill him. The lesson is to pray for your enemies and to love your neighbour as God loves you.

**BUSHPIGS 2002**

And so the day arrives, time to set off, once again, to the exciting destination: BUSHPIGS.

Surprisingly enough, this year's boys appeared to be more enthusiastic about leaving their creature comforts behind than in previous years. NO TEARS!!!!

That must be a record!!!!

In keeping with tradition the bus journey was used as a "taster" of things to come. The only saving grace for the teachers was that they knew the drive home would most definitely be a lot quieter. The effects of severe sleep

Deprivation would eventually catch up with the boys!!

The debate over inclusion of these trips may be continuing in an official capacity, however, after attending this specific camp with the boys the merits of this type of excursion are blatantly obvious.

The three days were filled with a large variety of educational, team building, problem solving and fun activities. The physical nature of this camp also suits the nature of the majority of our boys. It gives them a chance to "BE BOYS."

Some of the activities in which the boys were involved included: Building their own shelters one night, an evening treasure hunt another (too many scary movies contributed to some very vivid imaginations on this outing...) and then there were the night game drives which proved most adventurous for some.

We also believe that this outing makes the boys appreciate their surroundings much more. Many of them actually promised that they would not take things at home for granted. They would really appreciate home MUCH MORE!!

We feel that the boys themselves are the best ones to express their feelings regarding the camp. Here are a few boys' favourite and not so favourite things about bushpigs. We are sure you will notice that the one list outweighs the other by far.....

Spitting dung and the Piggy Wagon are both the things Grant Prior cannot believe he did!!

The hunting farm next to the game reserve made Ronan Worthington nervous!!

The SCARY treasure hunt was a definite hit with Barry Morrisse and Stephen Jones

Daniel Still's muscles were killing him after the LONG walk!

Grant Walker disliked the fact that his allergies meant he was not allowed the "cool" food.

Seeing the dead animals at the scavenger restaurant put Fabrizio Sacco off his food!!

"The stink of the dead animals was DISGUSTING" - Simon Ehrlich

"The ravine walk was great but really HOT!" Jonathan Franke

For Raymond Zambon the drive to Bushpigs was TOO long but he loved getting dirty in the mud.

# GRADE 4 MJ

Michael Kirby did not enjoy the feeling of sand between his teeth on the obstacle course!!

Calvin King thoroughly enjoyed the chocolate, but did not enjoy falling in the mud at all!!

"I really missed my mom's cooking" Angus Morris

The cold showers were NOT a treat for Matthew Sham.

The alien pancakes were definitely a selling point for Brad Lattila-Campbell

Kailin Pillay will never get over the fact that he ate a WORM!!!

Brendan Mitchell enjoyed the camp staff and getting DIRTY on the mudstacle course

Gareth Hardie loved making his own shelter at Camp Hedgehog

# GRADE 4 SJ

The freezing cold showers @ 6am were a real test!! Franco Rizzuto

Deep fried maggots and overgrown toe nails were Luke Gaffney's favourite breakfast

Playing catch with his own pancake was too much pressure for Julien Houder

Simon Rigby managed to write an essay of his experience, he though he enjoyed sleeping outside even though he had a rash for a month afterwards!!

Murray Burgess did not agree that Mopane worms taste just like biltong!!! And he was the chief baboon in Grade 4SJ!!

Michele Dal Col found the trailer disaster too funny to deal with.

"My white pants will never be the same!!" Dino Solomides's comment on the mudstacle course!!

"Shooting the bow & arrow was cool!!" this from Daniel Barnard

For nature lovers James Morrison and Trevor Rowley: The fresh air and sunsets were OUT OF THIS WORLD!!!

Mark Prior reckons Bushpigs deserves another visit just for the FOOD!!!

Spitting Impala dung did not agree with Tristan Schafer... He did, however, enjoy the mudstacle course

It will take Sheldon Diepraam a VERY long time to get over the fact that he actually ate a WORM!!!!

Ethan Wallington felt the game drive, the mudstacle course, building his own shelter all came tie for his favourite activities.

Alvaro Giuricich & Luca Maraschin could not find a single thing they did not enjoy!!!

The showers did not quite meet with the approval of Richard Fisher!!!

# GRADE 4V

Kai Marini could think of only one word to describe the entire experience: "LEKKER"

The water slides & tug-o-war were by far the best for Richard Steyn!!

Matthew Rigby felt that bedtime was FAR TOO early!!

Energetic Travis Van Crombrugge enjoyed the LONG walk to find baboons.

As far as Matthew Burkett as concerned he hated getting dirty during the mudstacle course... Thank goodness mud comes off with a bit of soap!!!

Matthew Dyson found it hilarious that Amaury fancied one of the female staff at Bushpigs...I think he also fancied her!!!

Kieran Goosen, the real bush warrior, could not wait to have a hot shower!!!

"I loved building my own house!" says Jweraoyi Arachany  
Although they wracked their brains, neither Blaine de Lange nor Alexander Evers could think of anything they did not enjoy!!!

The green pool and showers were not to Thomas Cole's liking!!

BLACKJACKS BLACKJACKS BLACKJACKS!!!  
These really bothered donovan Nicholls

Dean Bakos loved the treasure hunt he wants everyone to believe he was not scared....

If their mothers and fathers wouldn't have missed them then Thato Tshoga & Illiffe would have moved into Bushpigs!!!

"Travis pulled my sleeping bag off me and I Froze!!!" Richard O'Mahony

"The bathrooms could use serious renovating!!" suggests Bryan Mc Carthy

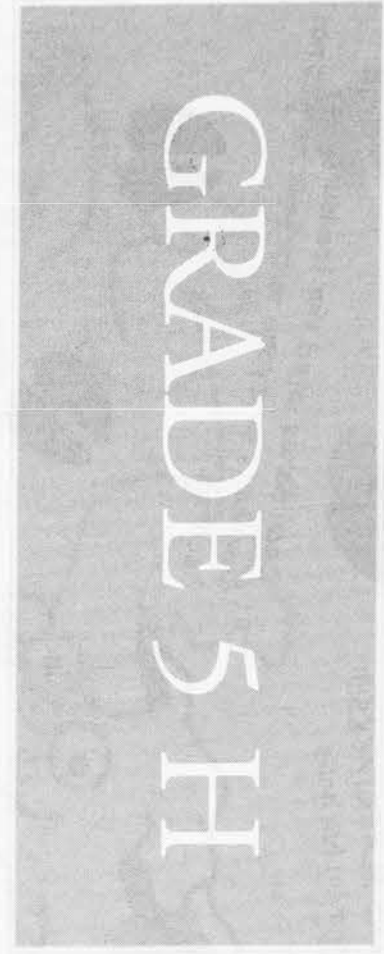

Duey Mohlala's tummy got the best of him...  
He loved the marshmallows and chocolate dip!!!

Getting dirty during the mudstacle course was Mikhail Henry's favourite.

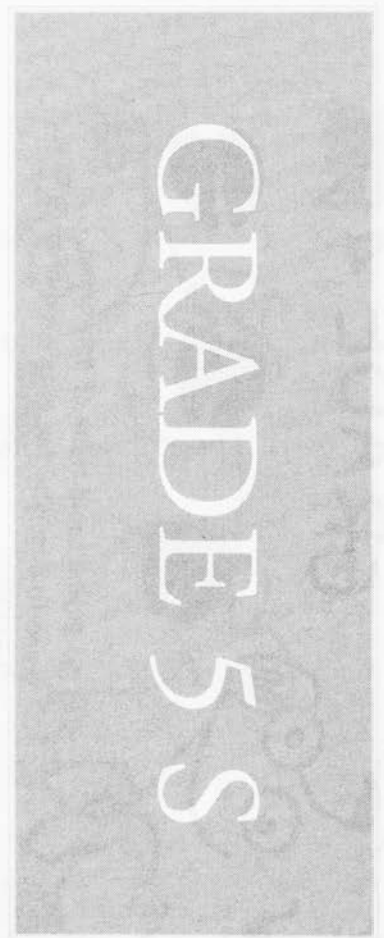

Warren Anthony had a serious aversion to the Green Pancakes!!!

### African Sunset

There I was looking at the beautiful sunset waiting for it to go down. It was gazing at me as if it were alive. My Mother and Father had gone on holiday so I was all alone. I think this was the most beautiful sunset I've ever seen in my life.

### Gabriele Di Giorgio

#### Eagle

Sternly, relentlessly looking for the prey.

Waiting.

Listening.

Waiting to sink its talons into the prey down below,

To rip the flesh off .

With its hooked beak

The eagle stands,

Silhouetted against the azure sky.

Perched on a crag on the steep cliff.

Always staring all around.

Then, coming down with its massive wingspan, to kill its prey.

A blur of brown feathers swooping down for the kill.

### Brendan Stott

#### Invisible

I am here today to tell you what it is like to be invisible. It all started last week on Monday morning. My class was at our weekly science lesson and the teacher said: "Class, today we are going to try an experiment that can turn vegetables blue."

While my lab partner was putting the ingredients into the jar I added a funny green goo and a red paste to the mixture. There was a very loud explosion. Some of the concoction got on to my body and when I went to the bathroom to look in the mirror I could not see myself. The concoction had turned me invisible.

I decided to see how I could help the homeless and poor people in our country and also get the government to assist these people and find a cure for HIV and AIDS. I wondered what my class mates were doing, so I took a look around the classroom, all heads were down, busy working. Have they missed me, I wondered?

Back to helping the homeless and the poor, I wrote a letter to the President and took it to him personally. He and his staff got a huge fright when they saw a letter floating in mid air. He read the letter and said we must do something about this as soon as possible.

All this charity work had made me thirsty and I realized I needed a drink. After having a drink of water I looked up and saw myself in the mirror and I knew I was no longer invisible.

### Matthew Watson

#### Killer Shark

I felt something grab me, I struggled and next thing I know I'm surrounded in blood with no leg.

BLOOD! BLOOD! I smell blood. Ah there its coming from there. Hey a leg. SNATCH! Time for lunch.

### Jason Van Kerckhoven

#### The Joust

It was the year 1240 and I was in an enclosed field, waiting to go into combat with my opponent. A woman from the crowd gave me a piece of her clothing as a token of luck. I put it in my helmet and it made me feel strong and brave.

We were helped onto our horses and took our place to begin the fight. I saw the man in front of me raise a green flag to begin. I saw hundreds of people in the crowd clapping their hands and jumping up and down. I heard the crowd shouting and as we started to get closer I heard the hooves of our horses trampling on the sand.

Now the battle begins. He strikes me with the lance in my chest – the pain was unbearable. I couldn't breathe for a few seconds. I tasted blood and the salt of my sweat.

I became angrier and more determined to beat him. With all the strength I had, I hit him off his horse. He fell to the ground, and he died.

I had won the fight. The people were shouting for me and I felt like a hero.

Afterwards I saw the lady who gave me the token. As I got closer she kissed me and I smelled her sweet perfume. I won a big bag of gold and was the hero of the day.

**Ramon Michael**

**Shark-Attack**

The shark was coming full speed right at me. I could see its sharp teeth and the hungry look in its eyes, looking straight at me.

I smell blood, human blood. I went in the direction of the scent. I could taste it. I saw how scared he was. I bit. Oh how lovely the taste was. I swallowed it, whole.

**Brendan Stott**

**The Joust**

The pressure is mounting inside me. I feel nervous, yet determined to knock the other knight off his horse, although part of me is afraid that the other knight will knock me off first. I can taste the sweat coming from my forehead. I am very hot, and the metal of my armour is expanding and contracting with a small clunk. I think the other knight feels the same way as I do. It is almost time for the jousting to begin.

I am ready to face my opponent. With my lance under my arm and now with the blast of the trumpet, it has begun. I can hear the horses' hooves thudding on the ground. Then I feel the pressure on the lance – I had hit him off his horse! I knew that because I heard his armour hit the ground with a deafening clunk.

I had won the first round.

**What would happen to life on earth if all plants died**

The next time you see a busy plant working hard in the hot sunlight, stand at attention, salute it smartly and shout – "Sir, Thank You Sir"

All energy for life and human technology comes from the sun. Animals and humans can't eat sunshine. Green plants use sunshine, carbon dioxide in the air and water to make energy and oxygen.

This process is called Photosynthesis and it is the centre of

continuation of life on the planet.

The energy made by the plant during photosynthesis is an important sugar called glucose.

Animals and humans need to eat this glucose to get their energy.

All life forms need energy and oxygen to survive.

Glucose and others sugars are the fuels that power all living things.

Herbivores eat the plants and store the plant energy for their own use. E.g. cows, elephants and impala. These are known as primary consumers. Carnivores, predators and scavengers then

eat the herbivores. This is how they get their energy. These are known as secondary consumers e.g. Lion, Eagle, Crocodile, and Vultures. This is how the energy is transferred through the food chain.

Decomposers like maggots and earthworms eat up dead bodies, both plant and animal getting their share of energy and they in turn restore the organic matter to the environment.

Sitting, reading, thinking, breathing, pumping blood, talking, running etc, all need the body to burn sugar to provide the energy to do these things.

All our 5 senses need energy to work.

All this energy originally comes from the green plant.

If I painted myself green and stood in the sun all day. I would still not be able to produce my own energy.

We are entirely dependent on plants for the maintenance of life.

We need constant supply of new plant life to continue the energy cycle. If we run out of plants everything would come to a stop.

We need to save our forests and care for our environment to ensure that we always have enough plants growing to give us oxygen and energy.

Hug a tree thank you every day

**My Wicked Aunt**

I got a letter in the mail  
 When I saw it my face went pale  
 The letter was from my Auntie Grout  
 When I was younger she took me out  
 To a funfair with a roundabout  
 But I was young and she was wise  
 Then she took me by surprise  
 She picked me up and in a flash  
 She threw me out with one big crash  
 I landed in a candy stall the  
 Manager was quite appalled  
 And she was laughing at the door  
 That's why I don't like Auntie any more

 Oh no don't be a fool,  
 He was sent to prison for 27 years.  
 How awful 27 years of jeers and tears.  
 He was released in 1994 and became the president,  
 Not a resident anymore!  
 What a man, I am a fan!  
 After 4 amazing years he went on and made many more  
 He made charity groups for all and became one of the

**Zululand Dwarf Chameleon**  
 This is how it all began, my sad and frightening tale, of how  
 I was taken far from home and put into a "jail".  
 The day that it happened seemed all the same, until  
 The mighty giants majestically came.  
 The weather was quite sunny, a few clouds here and there,  
 And I was a free and happy Chameleon, living without  
 A care  
 Who would have thought that I'd be caught and thrown into  
 A box, with many chains, strings, and ropes, holes and keys  
 And locks?  
 Some of my family still remained, others felt that I did  
 Some ran, some killed, others escaped and hid  
 Then I was flown across the sea to a mindless human's  
 Home. Who thought I was fluffy and tore my skin, with  
 Brushes and with combs

I surely fit my science name with no obligations said,  
 Bradypodion-slow-footed Nemorale-horned head.  
 The meaning of the first part of my scientific name, is the  
 Reason I had trouble escaping when they came.  
 All is well and okay now for I'm back from where I came,  
 Just so you know to look out for me, here's my common name.  
 I'm a Zululand Dwarf Chameleon and proud and quite  
 Disputed. I'm dark-greenish colour with rust spots distributed.  
 I'm 10 to 13 centimeters long inclusive of my tail,  
 I can also change my colour, red, black, and whitish pale.  
 But I'm slowly disappearing, for foolish human deeds.  
 And for superstitious reasons, thinking I'm diseased.  
 But that's a bunch of rubbish, that nonsense isn't true.  
 You can stop the false beliefs in everything you do.  
 Spread the news of my whole species, and refuse to  
 Believe strange things. For the feathers of well doing are  
 Embedded in your wings.  
 If you want a species to survive for the many coming eons,  
 Proclaim the word of the wonderfully fantastic, Zululand  
 Dwarf Chameleons.  
**Kaelo Molefe 6W**

**Something turned to nothing**

I saw a beautiful mountain  
 Rising high above  
 A sparkling fountain  
 There was dark  
 And bright green  
 Everywhere to be seen  
 I returned a year later  
 To see dead trees  
 And ferns scattered  
 Along the horizon  
 I thought it was quite sad  
 And that if there was someone  
 Who could be so bad  
 I turned so I could not see  
 The remains of Eden  
 Of life

**The Thresher Shark**

In the dark depths of the ocean wherever it may be, the  
 Thresher shark is it after me.  
 Swimming swiftly through the water with  
 Its mighty tail and hunting with sharp  
 Teeth, that never seems to fail.  
 With its jaws open nice and wide  
 The Thresher Sharks hunt side by side  
 Jumping in the air when under attack,  
 The Thresher Shark is blue not black.  
 At maximum it is six metres long,  
 To catch this creature is simply wrong.  
 Protect this creature do not kill  
 Or you will certainly never fill  
 Its place on earth to start from birth  
 Will certainly never do. But in the  
 Ocean dark and deep.  
 The Thresher Shark is it after you?

**Plett**

Plett with its endless days of golden  
 Warm haze  
 And it's deep and shallow seas of  
 Aquamarine added to its waves that  
 Look like snow topped mountains  
 Because of the saltiness.  
 It's sand that looks like a cinnamon topped  
 Pancake.  
 Surrounding the glistening bay is  
 The Outinequa Mountains, purple in the  
 Sunset looking like round hills from a  
 Fairytale.  
 On top of and next to the Robberg point is the  
 Crisp dry fynbos.

 terrible occurrences that I should dare not speak.  
 These awful little packages will always bring a frown, the fact I

 Them really gets me down.  
 Mondays are so dreadful, like a sickly blood-sucking pest, like  
 a mouldy piece of pizza or a colossal spot test.  
 Mondays are so dreadful, like all Cher's melodies, like stinging,  
 bulging blister or a nasty swarm of bees  
 Mondays are so dreadful, like when your teachers in a huff,  
 like the skin that forms on pudding or the steel of a handcuff.  
 Mondays are so awful, like a dog after the rain, like an ever-  
 lasting nightmare  
 Or a stabbing back-pain.  
 Mondays are disgusting, like creamed corn or lumpy beef, like  
 the stench of  
 Sour milk, or a mouth of rotting teeth.  
 Mondays are disturbing, like a paranormal scene, like a  
 schizophrenic creature, or a cannibalistic being.  
 But .....

## Observations on my school

### The Grade 7's of 2002 offer some thoughts on St David's

The St. David's Prep will always be in my memories from the fun I had, but also all the people I met and made my friends with who have made my life an enjoyable one.

#### Lorenzo Agostinetto

St. David's Prep was a memorable journey for me in which I met some interesting people and had interesting experiences. My journey at St. David's Prep will be remembered always.

#### Daniel Chappel

St. David's Prep has taught me to stand up for myself and to take courage. I have met some really great people in my years in the prep. My years at St. David's have been full of fun and most enjoyable and I will always remember this school.

#### Alessio Ciocchetti

At St David's Prep there is something that every boy can take out of their experience here. My best part of St David's was that they told us to take courage and stand up like a man. For me those words weren't just a motto but an inspiration.

#### Paul Cooke

After seven years at St. David's Prep, I have been led to conclude that the ancient Egyptians must have been mad. Before Champagnat came along education must have been a boring, dimly depressing...you get the idea. Marist education is about all being equal. It's about respect for our fellow human. It's about taking courage and standing up like a man.

#### James Clark

I came to St. David's Prep in Grade 5. I have only been here for three years and I have achieved more in these three years than I would have ever been able to at my last school, or in my own opinion, at any other school. The teaching is great; the teachers are great, the ethos and sport is wonderful. Everyone that goes to St. David's is privileged and should be very grateful.

#### Remy du Plessis

Eight years of St. David's gone like a 'click' and suddenly the next five years of Hilton Collage seem to look a bit grim. Good bye St. David's.

#### Ryan Egnos

I say thank you to St. David's for the three greatest years. Three years it has been since Mr. Castle has made me come clean. Mr. Nice guy and being all fly, and welcome to being as good as I really could. What a change it's made to my life.

#### Tyron Hardie

For all the experiences that have hampered me through school, good and bad St David's has taught me how to cope. It has taught me that this is what life is about After all the bad experiences, I have been picked up and told to stand tall in spite of those experiences. For all the good experiences, I have been congratulated. If there is one thing I take away from this school it is that I have achieved, but only with help of the school, friends and Marist family alike.

#### Kent Hauptfleisch

During my five years at St David's I have never managed to get away with anything because Mr Castle would always be around making sure I did not cause any problems. All this time I have worked my way up the pole to be a leader in Grade 7. Now I am going to be at the bottom of the ranks in Grade 8. Thank you St David's Prep for looking after me.

#### Nicholas Illes

St David's has taught me a lot. I have had some outstanding teachers who were always there for me.

#### James Taliadoros

St David's is certainly the best school in the world because it has the best motto, "Stand up and be a man". This motto revolves around everything in academics and sport. Getting a child to live up to its school motto is a goal that every school should have. I think St David's succeeded in this goal and that is why this school has such mature pupils who have very good manners. This has taught me such valuable lessons and one which I will live up to forever.

#### Kyle Robinson

The thing I learnt at this school was that they made a soccer team for everyone, so that no one would feel left out. They also encourage their team -mates and make them feel good about themselves.

#### Andile Lekhoathi

This Marist school has shown me how to love and care. The teachers all have their special way to make you feel comfortable. All in all, everyone here is welcoming and makes you feel like a part of the family. I am glad to belong to this family.

**Marc M'Crystal**

The funniest moment at St David's was when I bunked swimming and went to the library. Mr Castle went on a hunt for me. He made me swim for fifteen minutes and he wasted my precious break.

**Mpho Mokgoro**

The funniest thing that happened at St David's was when I was playing my first soccer match as a goalkeeper. Tyler Hollingsworth was chasing the ball when I slid out and grabbed the ball, he then tripped over me and did two somersaults and landed in the goals. All I could hear was the 'Ooohs' of the crowd but Tyler got up and carried on playing. I spent the first match for the 'A' team in stitches of laughter.

**Kyle Mills**

St David's is a great school and I'm sure most of the boys will agree with me. If there are any boys who can walk away from this school and not having at least one good time they are wrong. We have had a great time with games, stories and soccer matches to name just a few.

**John Van Wyk**

I know that through school you will get in trouble. So don't try not to.

**Sam Vandeleur**

St David's has done so much for me. It taught me Maths and English and all the stuff in between. It has also challenged me everyday for seven years. St David's gave me so much and I thank them for that.

**Ben Lowe**

My years at this school so far have been wonderful. I am grateful for the support and dedication of my teachers, who made every school day a memorable one, and for the friendship of my peers. I leave for the high school with fond memories and good friends.

**Craig Wallington**

I think the funniest thing at this school is a praying mantis that wouldn't leave James Clark alone until break ended.

**Daniel Stuart**

I have been at St David's since Grade 0 and there has never been a dull moment. We always have lots of fun in the classroom, although there is always the dedicated homework. St David's has taught me a lot and I am happy that I spent my Prep School career at here and nowhere else.

**Stewart Leith**

St David's is a brilliant school that gives everyone a chance at sports. It has an equal emphasis on sport as academic sport. There are new and amazing subjects like E.M.S. which gives us a sense of what the outside world is like. I think that St David's is the best school in the world.

**Praveshin Pillay**

I've been here for eight years now and St David's has been a second family to me. Every time I feel down or if I have a frown, St David's is there to be my family. I have a great love for the school. I always have, even with Mr Castle.

**Michael Sparkes**

St David's has taught me many things, such as discipline, honesty, to be a better Catholic. Above all this school has given me all my knowledge and has educated me with the very best. I have met many friends because of this school and I have also learned many different sports. So overall this school has been part of my life and an inspiration for growth.

**Reece Webster**

St David's has been a very special place to me. All my years in St David's were fun ones never to forget. The teachers are warm and caring. I'll never forget the time we locked the teacher in her room.

**Lorcan Holliday**

St David's has taught me many things. To laugh when you are sad, to make friends if you like them or not, to try your best in everything. Most importantly, I have learned to have fun and be happy.

**Duncan Petit**

The best thing that happened to me at St David's was when we went on Kids Camp. The people in my hut were Sacco, Buhle, and Simphwe. On the last night they told us that one man was killed at the camp and he would walk around at night. We thought it was a joke but then somebody, knocked on the window. We all put our bags into trunks and blocked the doorway for the night.

**Alex Peitzsch**

The funniest thing I saw was the 'Battery Incident'. We were in science class with Mr Mitchley, he was re-arranging batteries in to piles. After a long time, he finished. Then Gareth Brinkman walks up and mixes them up. "No man, Idiot!" Mr Mitchley smacked him over the head and the whole class laughed.

**Craig Watson**

I really enjoyed the camp at the beginning of the first term. We went to Kids Camp and had a great time swimming in the river.

**Michael Roberts**

One event that I remember very well, was in Grade 5 when we went to Lapalala. One night everyone in our camp was vomiting. They said it was food poisoning.

**Pieter Swanepoel**

This school is very meaningful to me because I have only ever been to this school. My favourite year was 2000 because in Grade 5 we had the most fun with Mr Kirkby. At one 'o clock we would have a reading period where Mr Kirkby would read us a horror story and O' Byrne and Brinkman would act it out.

**Gianlucca Sacco**

St David's has been my life for the last four years and is sadly coming to a close. I have sincerely enjoyed myself amongst the boys and teachers. I have learned a lot and learned it with joy. Thank you St David's.

**Michael White**

As I only started here in Grade 3, I don't know what it is like to be in the Prep School for seven years, I have really enjoyed my stay here and would probably never go to another school. Thank you for five great years of Prep School.

**Byron King**

During my short time at St David's Prep, I have made a lot of progress, more than what I ever would have anywhere else, I think.. I know that very many of my fellow pupils take what they have at this school for granted, but I hope I will never make that mistake. St David's is an incredible school that stands out way above the rest. This will continue to be my school until I pass Matric, there will be no other for me.

**Dino Zuccollo**

As my first year at St David's I have found it very exciting. Everyday is not just work, it is work play and fun.

**Ridhwaan Laher**

"It was the best of times, it was the worst of times." My seven years at St David's have been the best ever. I have loved every minute of every day. This year has been challenging and I would never have made it if weren't for the great support of the teachers. I am going to miss the Prep School but look forward to the new challenges that I will face in the high school.

**Brian Lebos**

As I look back at my schooling days at St David's I always remember the good times. Whether it was having fun on tour or talking to friends, St David's will always have a special place in my heart.

**Andrew Keightley-Smith**

St David's for me is an excellent school. I have a lot of memorable moments that I will never forget. I have been here since Grade 0. I went to another school for three days and decided to come back. I don't intend on leaving, ever.

**Dayne McLaughlin**

My time spent at St David's has been an enjoyable time. I have learnt a great deal and have had great fun. Every year at St David's has been a good one and an enjoyable mixture of hard work and fun. I hope to carry on enjoying my days at St David's and that they will be full of fun and excitement.

**Rowan Studti**

I have had a wonderful time at St David's. I have especially enjoyed my sport. Mr Mitchley was one of my best coaches because he gave me a wonderful opportunity to prove myself in the first team in Grade 6. Mr Webb was also a good coach and a brilliant life skills teacher. Mrs McWilliams and Mrs Everson were my best teachers as they laugh, smile and joke a lot. They are also very good teachers. I really enjoyed my time here and this is for all the teachers in the school. Thanks a lot for everything.

**Nicholas Riemer**

I was in Grade 1 when I was on the roof of the pavilion and wanted to have some fun. I started throwing some rocks at the speakers, but I missed and little did I know that Mr Castle was under the roof and the stones just missed him.

**Shaun Norton**

Mr Kirkby, one of my favourite teachers, who has sadly left St David's used to teach me in Grade 5. When he got angry with the class he shouted loudly and when he did so his voice went from a deep whining sound to a squeaky sound. It sounded like his voice was breaking.

**Justin Neilson**

St. David's is a loving and caring school that always supports you in what you do. The best part about St. David's is they always give you a fair chance to prove yourself in what you can do. Mr Castle, is great he gives everyone a chance to do something in sport and no-one is left out of the activity.

**Timothy Adam**

St David's has been great! The teachers have been outstanding. St David's has always been fair from the sports field to detention. The school is always organized and prepared for anything that comes along.

**Shane Beamish**

I have enjoyed my stay at St. David's prep. The teachers have always encouraged me and supported me through everything I have done. But most importantly, the school has taught me to have pride in my school and that there is a time and a place for everything. This is my time to say good-bye to the Prep and the best teachers in the world, I will always remember you.

**Michael Berti**

St David's is a great school. You are always given a chance to prove yourself in everything. I now have to say goodbye to my wonderful prep school and venture into the unknown realm of the high school but I will always remember all teachers, pupils and friends. St David's has taught me, to mention only one thing, to take courage and be a man.

**Kyle Dos Santos**

I have been attending St David's since Grade 2. Before that I went to St Henry's in Durban. Being at St David's has taught me a great deal of things. The most important thing it has taught me is to take courage and be a man. I have had many happy years at St David's, and of all the things I can say I'd say it's better than any other school in Johannesburg. I'd say it's number ONE!

**Rory du Toit**

I have been at the school from Grade 0 to Grade 7. I have enjoyed my time at St. David's. The teachers were great and very helpful. The teacher I will never forget is Mr. Castle with his loud voice and loud whistle. Mr. Castle is a great man, he is one of the most organised men I have ever met, he gets sports events done in seconds. My time in St. David's is one I will never forget.

**Struan Frost**

## GRADE 7 LUNCHEON

### Farewell Address at the Grade 7 Luncheon

It all started way back in 1995 when we entered St David's Marist College. We were mostly a lot of "2B". Some of us wanted to be doctors, some lawyers or firemen others just like our Dad's and many of us just wanted to be at home! Our ambitions may have changed somewhat but we stand before you today hopefully having become students that you as teachers are proud of.

Good afternoon and welcome Mr Edey, Mr Williams, Mr Wilson all the staff of St David's and my fellow pupils.

Our memories of Grade 0 are ones of Letterland, Court Sports, sandpits and jungle gyms. Mrs Milne for her beautiful smile and outstanding memory and the ever youthful Mrs Tyack who is remembered as being one of the kindest and most loving teachers. Yes, and let us not forget Mr Castle who was there from day one, frightening all the mothers at our "Grade 0 Open Day" party!!

By the time Grade 1 rolled in we were all pretty much into the swing of things at St David's. This was the year of the three "R's", reading, riting, and rithmetic! Although Mrs Norton now teaches Grade 2 she was my kind and caring Grade 1 teacher. Mrs Norton I will always remember your delicious mugs of hot chocolate on those cold winter mornings!

1997 and we progress into Grade 2. In Mrs Ansell's class the top stamp or sticker that we all aspired to was a smelling or a furry sticker of which I only managed to acquire one.

Our time spent with Mrs Ansell was excellent preparation for what we were about to experience in Grade 3....

Grade 3 and our final year in junior prep. Mrs Zambon, always strict. She taught us to be disciplined and to divide our time, somewhat unequally we felt, between work and play. Mrs Hurley would always joke with her class and tell them that she was over 100 years old and only disguised as a teacher, but that she was, in actual fact, a witch! Mrs Hurley, St David's needs you back to weave some of your magic over us.

In our first year of senior prep, we received a gift of a teacher in Mrs Jones. A soft-spoken and loving but firm teacher, who taught us to listen because she wasn't prepared to shout or repeat herself. Although if you didn't understand something, she had the patience to explain it until you understood.

Mrs Johnston, I have been told, was a strict teacher but she is also remembered as having the ability to be very funny and to make her pupils laugh. Mr Castle was still an ever present force in our lives.

Grade 5 – Mrs Hayward's year – now here's a story that must be told..... It all started when Mrs Hayward decided to go and hand some files into the office, leaving us to our own devices. In the class it began with talking, which then became laughing, joking and a whole lot more and finally turning into a ruler fight. Pre-occupied as we were, we never saw Mrs Hayward returning.....!! Suddenly the door flew open and there standing in the doorway was Mrs Hayward as furious as ever, she threw the door shut causing a piece of door to splinter off, leaving us shaking and wondering as to the consequence of our actions!!!

Up and onto Grade 6 where we encounter Mrs Geldenhuys, who is affectionately known to her pupils as "Mrs G." Now "Mrs G" had somewhat unorthodox methods of teaching us

mathematical rules. I remember one day in particular when she taught us the rules of "tip and times" and "powers". Firstly, we had to draw 'Mrs G' standing on her desk doing the "tip and times" action and believe me if I tell you that not all of the pictures were really that artistic. Then, still standing on the desk she taught some thing I shall surely never forget. She said to us "anything to the power of 0 is 1.

See if you can guess who this is? "Sit altyd die werkwoord op die einde van die sin." Yes it 's Mrs Whitfield who always reminded us about our "maniere, Meneere!"

Our final year in prep school and I am beginning to think that Mr Mclver has become a professional student-stalker. I say this because he started with us in Grade 5, followed us into Grade 6 and then again into Grade 7!

Jokes aside, Mr Mclver has been a fantastic teacher and a good friend to a lot of us and who although he taught us for three years in a row, we always looked forward to his classes in Math, English, Science and HSS.

Mr Mitchley you will be remembered first and foremost for what has to undeniably be the worst taste in football teams (Mr Mitchley has favoured Liverpool for many a year.)

Mr Castle who in Grade 7, is still with us and is not only our Sports Master but a Class teacher as well!!!. Many stories could be told about Mr Castle in that he has taught, amused and downright terrified boys for the duration of their school career, but my tale of Mr Castle is not one of fright. It all happened one day at the A swimming trials when Mr Castle could not find Sean Gishen. Without a moments hesitation "wherrres Gishaaaaaan?????" followed by "yoouu frrruitcake!!!" Mr Castle, Sir, you will never be forgotten.

Mrs Everson was once asked in class why such a brilliant, clever and great women such as herself became a teacher instead of becoming something else and becoming rich? Answered, "because I do something I love, I am rich." These words I will never forget and even though angered at times, Mrs Everson has threatened to

always remember her by.

Besides our class teachers, we have had so many more teachers who have formed part of our education at St David's; To Mr Webb for introducing us to issues of the world outside of our protected ones.

To Mrs Anderson and Mr Thackwell for overseeing all as Heads of Departments for the Junior and Senior Primary.

To Ms Joseph, Mrs Brown and Mrs Blake for inspiring our creativity whether it be in Art, Language or Music.

To Ms Sartori for our essential training in and on computers

To Mrs McWilliams for taking us to new heights in Afrikaans and for instilling in us inquiring minds into all things biological.

To Mr Hosmer for his weird sense of humour which added spice to life in all of his classes.

To Mrs Pillay for always being the voice of reason in volatile situations.

To Matron for always being available to mend a grazed knee and more often a bruised ego.

To Mrs Groenewald and Mrs King and all the administration staff, whom we seldom see but who run their department like a well-oiled machine.

And finally I would like to extend a special word of thanks to Mr Edey, Mr Williams and Mr Wilson who are thought of with great respect and admiration. Thank you for always leading by example.

To end off, I would like to read a poem to you, written by Edgar A Guest, entitled "My Creed" as I feel it expresses all that we have learnt in our years at St David's Marist Prep, and is in keeping with the theme of today's luncheon which is "2B".

I live as gently as I can;

To be, no matter where, a man;

To take what comes of good or ill

And cling to faith and honour still;

To do my best, and let that stand

The record of my brain and hand;

And then, should failure come to me,  
Still work and hope for victory.

To have no secret place wherein

I stoop unseen to shame or sin;

To be the same when I'm alone

As when my every deed is known;

To live undaunted, unafraid

Of any step that I have made

To be without pretence or sham

Exactly what men think I am

To leave some simple mark behind

To keep my having lived in mind

If enmity to aught I show,

To be an honest, generous foe,

To play my little part, nor whine

That greater honours are not mine.

This, I believe, is all I need

For my philosophy and creed.

**“TENNIS IS LIFE – the rest is mere detail”**

This quotation can be used to summarise the 2002 tennis season at St David's Prep. Every break there have been boys playing challenge matches, challenges for number 84 on the ladder being taken as seriously as the positions for the team. Boys from Grade 1 through to Grade 7 having the opportunity to represent the school, either at mini tennis level, junior tennis level or senior level.

It is here that I need to make mention and thank the staff involved with all these boys. Mrs Cryer, for all her hard work in organising and taking the mini tennis teams. Mr McIver for organising and taking many of the Junior and Senior teams. To Mrs Voigt and Miss Sartori for their willingness to help out where necessary. To all Junior Primary teaches, who helped out during the week and a huge thank you to Mr Montgomerie, our coach, for encouraging the boys and making tennis an enjoyable experience.

In terms of results, our 1<sup>st</sup> team lost only two matches in the first term, won the private schools league in the second term and lost only one match in the third term, still winning their league. Mention should be made of our tour to Natal and the return tour from Highbury later in year. The 2<sup>nd</sup> and 3<sup>rd</sup> teams, playing other schools "A" teams also faired exceptionally well. Our U11A team won their private schools league. 160 boys playing tennis from Grade 4 to Grade 7 – we can only expect good results.

The most exciting news is that next year we will have eight new courts with space for mini courts. This should ensure the progress of Tennis as a major sport at St David's.

## OLD BOYS' NEWS

Dear Mr Edey

I thought I would drop a line to tell you what I have been doing over the past two years and hear if you are well.

My mother tells me that she sees you every now and again. As you remember I left SA in a hell of a rush and have been living in Italy and studying International Finance at the European School of Economics. The first months or more were quite a struggle, specially from a bureaucratic point of view, but everything has worked out well in the end. From September to November last year I went to live in Milan and worked at an investment bank called Areabanca. Previous to that I worked part time in Florence (1 hour from where I live) at Blumobile, a company which offers online investment services. Currently I am in 3<sup>rd</sup> year of my 4-year degree. At the moment I am in New York, I arrived in September and will be here 'till January, I am doing an internship at Merrill Lynch NY. It is a great experience and a definite eye opener into what finance is actually about. I just spent a week visiting Marco Mavromaras in Dallas. He has been in Dallas for 6 months and he is currently studying at a College there. His whole family has moved over. In January I

should be changing Universities, and completing my degree in London at Regent's Business School. They have awarded me almost 100% credits for what I have completed so far and have offered me a scholarship. If all goes well I should have finished my undergraduate degree by June 2004, with as much work experience under my belt as I can get, and then I will be able to get on with the most important part. Work and an MBA.

**Dear Mr Edey**

It's seems many a year since I left St David's now, but reading through all the names of the boys on the website, I can still recognise a few. I can remember when I left the school after the 2nd term of Std 9, (we still called them Standards in those days!), in 1998, how much I felt a part of the Marist "family". I still do, in a way. It's something I've certainly missed since leaving SA. But, on the postive side, my family and I settled well in Northern Ireland and we've been very lucky.

My father has just been offered the job of GM of a pharmaceutical company in the Republic of Ireland, and my mom and sister have also found their niches in the land of green

fields and leprechauns. My sister has moved schools a couple of times, but she's settled now, and will finish her A-levels in 2004 at Banbridge Academy (in Northern Ireland). When I arrived in Northern Ireland, I dropped back a year and a half so as to get the GCSE qualification on my record. I finished at Banbridge Academy in 2001, and achieved 4 A's at A-level in Maths, Further Maths, Physics and Biology. I was accepted to Warwick University, in Coventry, to do a 4-year Mathematics and Physics degree.

At the moment I'm studying for my final 1st year exams in June. It's been a tough year study-wise, but very interesting and I'm enjoying my course a lot. I've made some wonderful friends here in England, and also in Northern Ireland. Believe it or not, when I finish my studies I want to be a teacher! (I'm sure some of my old teachers at the College will be shocked at that one). I hope to teach the International Baccalaureate, hopefully in both Maths and Physics. Please thanks Miss Henning for her encouragement and positivity for me. She was a great help and is an inspiring teacher.

Today is a rare sunny day in England - it's true, I've missed the South African weather. And the school system in NI was quite different to SA. I must be honest - I thought St David's was a much better school in many ways. But then again, I didn't have to swim in a frozen pool at 7am nor do a road run in the blistering heat, with Mr McMillan bearing down on me! Plus, Banbridge Academy was co-ed - a huge plus factor, of course.....

Haha, no, in truth, I feel very grateful for those 6 years at St David's, and I have many wonderful memories. And I hope to re-live those memories when I visit the school in July this year. We are visiting SA again, and I am going to definitely drop by and say hello! I hope to meet you and all my teachers again - it would be an honour.

The school (from the website) looks excellent, and I'm excited to see the improvements. I hope these last 3 and a half years have been great years for St David's. I will always be proud to have been a Marist Boy.

Yours sincerely

**Paul Edkins**
